

# A World Without You

## Martie Peters Group

I know that you can hear the rhythm of the rain  
Although we're miles apart I know you feel my pain  
I try to be so strong, I try to carry on  
But since you left the sun don't seem to shine  
My tears are falling on the words you wrote to me  
I wish that somehow they could take me where I wanna be  
It seems so long ago, you held me when I cried  
For now I just pretend you're by my side, oh yeah  
Everything that I touch turns to blue  
When I'm living in a world without you  
I'm going crazy, baby, I am missing you  
Can't imagine all I go through  
When I'm living in a world without you  
I'm not alone, I know that you can feel it too  
La, la, la, la, la, la, la, la, la  
I try to watch a movie but you're all that I can see  
(All that I can see)  
And in my dreams I know I always see you constantly  
But then a dream comes to an end and I'm alone  
And I can't seem to let this feeling go, whoa, oh baby  
Everything that I touch turns to blue  
When I'm living in a world without you  
I'm going crazy, baby, I am missing you  
Can't imagine all I go through  
When I'm living in a world without you  
(Can't live without you)  
I'm not alone, I know that you can feel it too  
La, la, la, la, la, la, la, la, la  
(La la la la)  
La, la, la, la, la, la, la, la, la  
(La la la la)  
La, la, la, la, la, la, la, la, la  
I try to be so strong, I try to carry on  
But since you left the sun don't seem to shine, whoa  
Everything that I touch turns to blue  
When I'm living in a world without you  
(I'm going crazy, missing you, baby)  
I'm going crazy baby, I am missing you  
Can't imagine all I go through  
When I'm living in a world without you  
(A world without you)  
I'm not alone, I know that you can feel it too  
La, la, la, la, la, la, la, la, la  
(What can I do without you, baby)  
Can't imagine all I go through  
When I'm living in a world without you  
(Living without you)  
I'm not alone, I know that you can feel it too  
La, la, la, la, la, la, la, la, la  
(La la la la)  
La, la, la, la, la, la, la, la, la  
(La la la la)

La, la, la, la, la, la, laI'm going crazy, missing you, baby  
Living without you  
(Living without you)
