You're the One

Sugarcult

everybody knows that he is gonna steal the show
you better keep it in control or you'll go crazy
back mask, spinning wax, your record had a heart attack
it made you do the things that drove you crazy
you're the one
you're the one
you're the one, that's making me crazy
I'm in love, but its only temporaryYou're the one that keeps me comin'
when I'm runnin' out of lovin'
I can only do it once you call me lazy
take back this and that
shut your mouth my wallet's fat
I'll sell out to make another million
you're the one
you're the one
you're the one, that's making me crazy
I'm in love, but its only temporary, temporary
you're the oneyou're the one
you're the one
you're the one, that's making me crazy
I'm in love, but its only temporary
it's making me crazy
I'm in love, but its only temporary,temporary
you're the... one
