

Switchblade

Danny McCarthy

I keep getting attacked by,
The girl in the black hat
The girl in the black hat
I can't find any shade,
But I'll be suede as long as I got a switchblade
I keep getting the eye from,
The girl in the thigh highs
The girl in the thigh highs
Whose iris is of jade
And built to persuade
And they're swift like a switchblade
Switchblade
Switchblade
They're swift like a switchblade
Switchblade
Nobody wears it like you anymore,
Nobody wears it like you anymore
Light like a feather,
Bright like a dying star
Cut those together,
Girl that is what you are
Wild eyes forever,
Built to punish and persuade
I lied to get her
But all I got was a switchblade
A Switchblade
So just give me the facts,
Who's the girl in the black hat
The girl in the black hat
I can't find any shade,
But I'll be swayed as long as I got a switchblade
I think I'm getting her eyes,
On all American thighs
Her American thighs.
She got her black hat,
And irises of jade
And I got a switchblade.
Switchblade

Yes, I've got a switchblade

Nobody wears it like you anymore,
Nobody wears it like you anymore

 Light like a feather,

 Bright like a dying star

 Cut those together,

 Girl that is what you are

 Wild eyes forever,

 Built to punish and persuade

 I lied to get her

But all I got was a switchblade

 A switchblade

Nobody wears it like you anymore,

 Nobody wears it like you

 I keep getting attacked by,

 The girl in the black hat

 The girl in the black hat

 I can't find any shade,

But I'll be swayed as long as I got a switchblade

 Switchblade

 Light like a feather,

 Bright like a dying star

 Cut those together,

 Girl that is what you are

 Wild eyes forever,

 Built to punish and persuade

 I lied to get her

But all I got was a switchblade

 Yes, I got a switchblade

 Light like a feather,

 Bright like a dying star

 Cut those together,

 Girl that is what you are

 Wild eyes forever,

 Built to punish and persuade

 I lied to get her

But all I got was a switchblade

 Yes, I got a switchblade...
