I ain't gonna rap on this last verse, I'ma talk on it

Cause I'm too smart, don't wanna spend a thought on it

Got everybody starin at the car components

It look like Voltron with the doors, don't it

You say I think I'm hard, I say you think too hard

I think you boys' little mind, what I think you lost

Engaged to my dough, I never think divorce

Watch me come through in that sea blue Porsche

[Chorus 2](Welcome to the future, the future is here)
