Life's Disease

Stutterfly

I feel so numb
All I've become
Has fallen apart
Hole in my heartSevered fragments of my being
Piece together, give life meaning
Fragile quilts of faded memories
Torn apart by life's disease againI will cry
All is a lie
That you must break
Heal my heartacheSevered Fragments of my being
piece together, give life meaning
fragile quilts of faded memories
torn apart by life's disease againI will cry
