

Life's Disease

Stutterfly

I feel so numb
All I've become
Has fallen apart
Hole in my heart Severed fragments of my being
Piece together, give life meaning
Fragile quilts of faded memories
Torn apart by life's disease again I will cry
All is a lie
That you must break
Heal my heartache Severed Fragments of my being
piece together, give life meaning
fragile quilts of faded memories
torn apart by life's disease again I will cry
