

Farmers Daughter

Epic Soundtracks

Farmer's daughter...

Remember this summer and Emily May
Emily maybe, and Emily may
Spend all of money and leave for the day
Emily maybe, Emily May

There once was a time when I talked to your father
I wanted to find out the name of his daughter
I'd see her around and I'd say see you round
Still didn't know if the words could be found

Well, I don't know what I'm supposed to do
I don't know what I'm supposed to do

There once was a time when I worked for your father
He gave me a wage and then the name of his daughter
Were talking one day and fell asleep in the hay
Started the marriage in the back of the garage

I don't know what am I gonna do
I don't know what am I gonna do

Remember this summer is absolute amazing
Feeling so good now feeling so lazy
Feeling alright now that you are my baby
Rising in morning till the end of the day

Well, I don't know what am I gonna do
If Emily leaves me, I'll have to find someone new

Well, Emily please
Can't you see
Emily please
Don't leave me
Well, can't you see
Emily
Don't leave me
Yeahhh yeahhh yeahhh

Remember the summer and Emily May
Emily maybe, Emily may
Well, Emily maybe gone today
Wherever you are girl
I just wanna say
That youâ€™re okay
