When Love Turns Around

Buzzcocks

What do you get when love turns around?
The hate is just a state in your mind
You say that you know me
But some things are hard to find
When love turns around you
When love turns around youWhat do you forget when love turns around?
The state is just a hate in your mind
You say that you know me
But some things are easy to find
When love turns around you
When love turns around youAlthough your life is plain
Lose as you win it's all the same
When love turns around you
When love turns around youYou say that you know me
But some things are hard to find
When love turns around you
When love turns around you
When love turns around you
When love turns around you
