

Come Running (Feat. Francis Hill)

Darren Styles

I will come running
I will come runningI will come running
Running every night
You say you want me
I will make it rightI will come running
All you ever need
Our love is dawning
Look outside
I'll be there tonightOur love is dawning
Look outside
I'll be there tonightI'll be there tonightI will come running
Running every night
You say you want me
I will make it rightI will come running
All you ever need
Our love is dawning
Look outside
I'll be there tonightOur love is dawning
Look outside
I'll be there tonightI'll be there tonightI will come running
Running every night
You say you want me
I will make it rightI will come running
All you ever need
Our love is dawning
Look outside
I'll be there tonightOur love is dawning
Look outside
I'll be there tonightI'll be there tonightI will come running
Running every night
You say you want me
I will make it rightI will come running
All you ever need
Our love is dawning
Look outside
I'll be there tonight
