

# Come to Me

Mark Lanegan

Come to me  
'Light on my shoulder  
Come to me  
Burn your starry crown Mmm, my dark angel  
I've tried, I can't get over  
'Cause when I think I'm climbing  
I'm really so far down Time takes a while  
To break ya  
And now only fire  
Can wake ya Oh, weeping willow  
Coughing up my heart  
Ask God to see my shadow  
And kept us apart Through my mind's every riot  
Or revelation  
(You've just now)  
You've just now gone  
As I arrive  
(Every station)  
At every station Oh, come to me  
(Come to me)  
(Come to me)  
Either early or late  
I've learned this by habit Now I know how to wait  
(Ohh, yeah)  
Come  
Come to me  
Aah, come to me  
Come  
(Ohh, yeah)
