

Crazy

3LW

I don't apologize that I have compromised
Myself and another guy, it's you that I'm talkin' 'bout
I've been with him for years but baby you uh
I must be crazy I want you for my own, you've been with her so long
She never done you wrong and she's so nice to me
Should have never touched 'cuz now we're in love
We must be crazy You got a girl, I got a man but I can't lie
I wanna leave him when I look into your eyes
You never thought that holdin' me would change your life
I guess that just stands for two wrongs can't make a right It's something that I can't help, my heart wants
someone else
Theres nothing that I can do, never thought it would be you
You say you're not afraid, I'll do the same to you
You must be crazy It's to late to turn back now, I'm afraid we don't know how
Baby, keep your faith in me, I'll never let you down
It's funny how we both know
There's no one else for us, it's crazy You got a girl, I got a man but I can't lie
I wanna leave him when I look into your eyes
You never thought that holdin' me would change your life
I guess that just stands for two wrongs can't make a right You got a girl, I got a man but I can't lie
I wanna leave him when I look into your eyes
You never thought that holdin' me would change your life
I guess that just stands for two wrongs can't make a right I been dreamin', baby you and I just leavin'
All the things behind, you could make it in a girl
Pack our bags baby let's go, I just wanna be your girl
You and I against the world, baby I been dreamin', baby, you and I just leavin'
All the things behind, you could make it in a girl
Pack our bags baby let's go, I just wanna be your girl
You and I against the world, baby
