

# Sally

## Sade

Sally, you opened out your arms to all those young men  
And girl you had room for every one of them  
You're the only girl on Barry and Third  
Sure as hell you're the only one who cared  
So put your hands together for Sally  
She saved all those young men  
Put your hands together for Sally  
She's the one who cared for them  
She's doing our dirty work  
She's the only one who cares  
Doing our dirty work  
Thirsty world, one angry day in New York  
Take a look at Dave he was once seventeen  
Zoot suit and shinny shoes, he ran around town  
And threw his metholated laughter  
Most of his memories drowned  
But he remembers what his mommy used to shout  
She used to shout, one day surely son  
The streets are gonna tire you out  
So put your hands together for Sally  
She's the one who cared for him  
Put your hands together for Sally  
She was there when his luck was running thin  
She's doing our dirty work  
She's the only one who cares  
Doing our dirty work  
Thirsty world, one angry day in New York  
Tommy had a wife and family  
But the needle came between the love and the hard times  
Thank God for Sally, she was there through the misery  
Just a place to lay his head, just about better off than dead  
She's doing our dirty work  
She's the only one who cares  
Doing our dirty work  
Thirsty world, one angry day  
Vince came up from the country  
Couldn't even find himself a room  
Thinking about his babies  
That's further away than the moon

With no money but his pride in his pocket  
There's really no way he can go home  
There's a picture of his woman in his locket  
Most of all he doesn't want to be alone  
Put your hands together for Sally  
She's the one who cared for him  
Put your hands together for Sally  
She was there when his luck was running thin  
She's doing our dirty work  
She's the only one who cares  
Doing our dirty work  
Thirsty world, one angry day in New York
