

Feel the Shake

Jetboy

Yeah!

Plug in that guitar, get ready to roll
Warm up your fingers, play with body and soul
Turn up the amps to ten and pound on those drums
Electric music played as loud as it comes, yeah!

I like it loud and clear, so don't be shy
Give me my music and I'm ready to fly
If it ain't loud enough, I don't waste me time
'Cause mellow rock is just a bloody crime

It makes your body move, it pounds in your head
If you can't take the volume, stay home in bed
But if you love it loud, there's no mistake
'Cause rock 'n roll is gonna make the earth shake

Feel the shake
Feel the earth shake
Feel the shake
Feel the earth shake, aw, yeah!

Pound it hard, make it fast, and rip those leads
'Cause I ain't happy till it makes my ears bleed
Vibrations hit me like I've never heard
My body's swayin' from the very first word

It makes your body move and pounds in your head
If you can't take the volume, stay home in bed
But if you love it loud, there's no mistake
'Cause rock 'n roll is gonna make the earth shake

Feel the shake
Feel the earth shake, aw, yeah
Feel the shake
Feel the earth shake

Feel the shake
Feel the shake
Feel the shake

Feel the earth shake!

Whoa!

Feel the shake
Feel the earth shake
Feel the shake
Feel the earth shake
Oh, here we go!

Feel the shake
Feel the shake
Feel the shake
Feel the earth shake, ho!

Feel the shake
Feel the earth shake, oh-oh, yeah
Feel the shake
Feel the earth shake
