

U Know I Love U

Killer Mike

Whoa baby
Whoa baby
Whoa baby
La la la
La la la, yeah
I will never leave you girl
(My girl, my wife)
You know I love you
(My pain, my strife)
Oh baby, oh baby
I will never leave you girl
(Good days, bad nights)
You know I love you
(Lovely fistfights)
Oh baby, oh baby
I will never leave you girl
(My girl, my wife)
You know I love you
(My pain, my strife)
Oh baby, oh baby
I will never leave you girl
(Good days, bad nights)
You know I love you
(Lovely fistfights)
No baby, no baby
Killa for look at us, forever fucked up
All we do is fuck, fight and get X'ed up
Enough, enough, we bad for each other mama
But our sex life ain't right without drama
In combat, sweet agony upon that
I deliver, make you take it soft and break it hard
Like dope dealers I'm a husband to a wife
But I'm ya nigga and you a perfect drug
Make a nigga heart quiver
You a heartbreakin', hard liquor on my liver
Like dro' and gin go together, you a mindshifter
Body dark like a cognac, I'm pussy drunk
In light [Incomprehensible], I stay drunk
My pretty little vampire, my Delila

Teach me how to hate the truth and how to love a liar
You malicious, mind bending every [Incomprehensible]
You a perfect drug, ultimate high and I'm a fiend
I will never leave you girl
(My girl, my wife)
You know I love you
(My pain, my strife)
Oh baby, oh baby
I will never leave you girl
(Good days, bad nights)
You know I love you
(Lovely fistfights)
Oh baby, oh baby
You're my path to the pen of the crazy house
I deliver dick raw and won't take it out
[Incomprehensible] you're the devil's daughter, can't fake it
Killin' me slow, I know and I can't shake it
Please stay, please leave, please don't go
Please walk away and let me be to die slow
This love is deepest of grave and it's forever
Snake pit, you're venom beyond measure
Pandora's box a lot, my treasure
If love is strong as the grave, make me deader
Jezibelle got my soul and my cheddar
Everytime I beat it down, it jump wetter
Like a dark cloud bringin' me pain and bad weather
I remain inside of your rain with no umbrella
I couldn't write the words, I blame this letter
'Til death do us part, we deserve to be together
I will never leave you girl
(My girl, my wife)
You know I love you
(My pain, my strife)
Oh baby, oh baby
I will never leave you girl
(Good days, bad nights)
You know I love you
(Lovely fistfights)
Oh baby, oh baby
A livin' drug, you're the bitch I hate to love
Learned to suck good dick by fuckin' thugs
A nigga can't teach you, spread like a track meet
Breaking D-boys, MCs and athletes, but not me
Told you from the start this shit forever
We gonna go through this bad weather together

Whether the road or high side, you gonna ride
Through the fistfights and black eyes, it's you and I
Ike and Tina, our love is measured in a millimeter
They say a partner don't love a nigga 'til a nigga eat her
But I'm raw and tired of the motherfuckin' talkin'
I'll be goddamned if you hit the door walkin'
I'm stalkin' the depths of Atlantis, evil enchantress
Slick and underhanded
Fuckin' with you like dancing with the devil, no command bitch
No for leaving niggaz empty-handed
I lost everything I love just to lust you
Bitch you take another step and I'll bust you
Bitch you take another step and I'll bust you
I will never leave you girl
(My girl, my wife)
You know I love you
(My pain, my strife)
Oh baby, oh baby
I will never leave you girl
(Good days, bad nights)
You know I love you
(Lovely fistfights)
Oh baby, oh baby
I will never leave you girl
(My girl, my wife)
You know I love you
(My pain, my strife)
Oh baby, oh baby
I will never leave you girl
(Good days, bad nights)
You know I love you
(Lovely fistfights)
No baby, No baby
