Cold

Controller

A warning came
Still you pushed me aside
No placing of blame
I can tell in your eyes-Pre Chorus-
This all began with rage, and anger unjust, feeling righteous, in your complacent games
Remembering all the pain, our feelings brought us, these memories priceless, but this chill remains.This chill remains
The chill remains-Chorus-
And everything has changed
Took every piece of me
And now you wonder why
Why I'm so cold (2x)I won't give in, and listen to your lies
I won't give in, and listen to your liesSo promise me a pound of flesh
Promise me your soul
Promise me how I'll forget
That time will take its toll-Pre Chorus--Chorus-I won't give in, and listen to lies
I won't give in, and listen to liesUn-justifying anger, that's undefined to me
Sick of struggling, with the thoughts that's petrifying me...I won't compromise
I won't compromise
No more lies....
