

# Spend a Lifetime

[Jamiroquai](#)

Touch me in the night time, all I want from you is love  
And I know you can give me such sweet moments  
To last me so long, you make me feel so strong  
All I want to do is spend a lifetime with you, baby, make it happen  
All I want to do is spend a lifetime with you, oh girl  
All I want to do is spend a lifetime with you, baby  
'Cos you make me feel that good  
And nothing else matters until you're in my arms, girl  
And all those broken promises we made to each other  
We have so much more to give I know that we can do this  
That's how I want to live eternally, together  
All I want to do is spend a lifetime with you, baby  
All I want to do is spend a lifetime with you, oh  
Will you make it happen for us now, please this time  
You know I need your touch honey, I want your touch honey  
Like the morning sun has just begun  
Girl, like the rain on my window pane  
Girl, if I could make you stay more than one day  
Eternally together, yes we  
Oh girl I need your touch, oh girl I want your loving  
Sweet, you know that we can make it happen  
For you and for me to be  
All I want to do with you girl is make it happen  
All I want to do with you girl is make it happen  
For us this time, eternally together we will be, girl
