Either Way

Etro Anime

There's a gun to your head will you pull or bleed
And keep your view of your identity
Tied with the need for a perpetual enemy
Will you prove your manhood to me we'll seeI wish you knew you didn't have to
But either way I'll still love youA hostile world is easy to sell
An open world is easy to tell
Of prosperity and dignity for those who fell
Making it reality seems to be hell wellI wish you knew you didn't have to
But either way I'll still love you
I wish you knew you didn't have to
But either way I'll still love you
I'll still love you
