

# Reagan's In

## Wasted Youth

Reagan's in we're going for good  
We'll fight and kill the best we could  
    No one cares if we die  
    Reinstate the draft and tell us lies  
    You fight a war where no one wins  
    Where people die and bodies burn  
    Reagan don't care he won't fight  
He'll try and send us with all his might  
    There he goes another one  
    Kill that man his values are wrong  
    It ain't movies it's not T.V.  
It's preety rough man you will see  
    All this shit it's just no use  
    Men unite don't be abused  
You have to go it's not your choice  
    Sure we'll go but hear our voice  
Reagan's in we're going for good  
Reagan's in we're going for good
