

# Love Is Leaving

[BBMak](#)

There were times I knew  
But I found it hard to say  
You were special in my life  
Never thought you'd go away I'll be strong, I'll get by  
Without you in my life  
I can see through your lies  
Did you ever love me  
I never found your love You and I know, love is leaving  
And you don't want me anymore  
Why should I even try You and I know, love is leaving  
Now you're the last thing on my mind  
Someone else, I will find  
A memory, I've left behind If I ever made you cry  
Any reason I can't find  
It was lonely by your side  
Like a fool I stood by you I'll be strong, I'll get by  
Without you in my life  
I can see through your lies  
Did you ever love me  
I never found your love You and I know, love is leaving  
And you don't want me anymore  
Why should I even try You and I know, love is leaving  
Now you're the last thing on my mind  
Someone else, I will find  
A memory, I've left behind Is there something I could do  
Is there something I should say  
Is there someone else  
To keep me from the night You and I know, love is leaving  
And you don't want me anymore  
Why should I even try You and I know, love is leaving  
And you don't want me anymore  
Why should I even try
