

Spin The Bottle

Cupid

Oh la la, Bangladesh
New Cupid
Let me see you spin the bottle

Round and round and round she goes
Where she stops nobody knows
Soon as she gets on the floor (oh)
Round and round and round she goes
Where she stops nobody knows
Soon as she gets on the floor (oh)
Ooh ooh ooh
Where she stops nobody knows
Ooh ooh ooh
Soon as she gets on the floor

When she walks she leaves a trail of fire (fire)
Eternally burnin' my soul (oh)
Fulfillin' my every desire (desire)
How she does it nobody knows
From the side so fine
From the front she is a dime
And who from behind (spin that thang around the clock)
Baby take your time
The way you make it wind
And when you get to me then (stop)
I love to see your body movin' (yeah)
Twistin' and turnin' to the music (yeah)
The way you take it to the floor
You make me say ooh oh oh oh ooh
(Ooh babe)

Round and round and round she goes
Where she stops nobody knows
Soon as she gets on the floor (oh)
Round and round and round she goes
Where she stops nobody knows
Soon as she gets on the floor (oh)
Ooh ooh ooh
Where she stops nobody knows

Ooh ooh ooh
Soon as she gets on the floor

Everyone in here is a magnet
So attractive

'Cause she stacked
No it's not fiction it's a fact

Body of a goddess

Gotta be the hottest

You gotta swing my way so I can give you some of this (this)

And a little bit of that (that)

Turn around and catch a glimpse (glimpse)

Your really workin' that

You make around through the club

Bouncin' and shakin'

Baby what's up

Let me see you make it

I love to see your body movin' (yeah)

Twistin' and turnin' to the music (yeah)

The way you take it to the floor

You make me say ooh oh oh oh ooh

(Ooh Babe)

Round and round and round she goes

Where she stops nobody knows

Soon as she gets on the floor (oh)

Round and round and round she goes

Where she stops nobody knows

Soon as she gets on the floor (oh)

Ooh ooh ooh

Where she stops nobody knows

Ooh ooh ooh

Soon as she gets on the floor

Baby girl so hot hot

Let me hit my spot spot

Look at how she go whoa

Run around and drop

Let me see you spin that bottle

'Cause you look just like a model

Seein' all your chicks

Can you work this stick

Or do you just switch to auto

I can ?

Let a young cat handle you
Spin it till you tired
Let your fire just like a candle ooh
Look at how she do it
Got my mind on stupid
I don't know what's up
I think I'm in love like I'm hit by cupid

Round and round and round she goes
Where she stops nobody knows
Soon as she gets on the floor (oh)
Round and round and round she goes
Where she stops nobody knows
Soon as she gets on the floor (oh)
Ooh ooh ooh
Where she stops nobody knows
Ooh ooh ooh
Soon as she gets on the floor
