

# Parachute

## Olivia Somerlyn

I'm so turned around  
Don't know which was is up or down  
    Round and round  
I just can't figure out which way to go  
    'Cause I keep going back and forth  
You got my head and my heart at war  
    The highest highs  
    The lowest lows  
    You lift me up  
    Then let me go  
I've had enoughI'm gonna jump  
    Before you push me  
    Oh Free falling  
    Oh You're the parachute  
Oh I'd rather crash than reach for you  
    Parachute  
Gravity keeps on pulling and pulling you back to me  
    I can't help wanting more of the way it feels  
    'Cause when it's good it's so good  
    But you're always changing the view  
    The highest highs  
    the lowest lows  
    You lift me up  
    Then let me go  
    But I'm not afraid to fall
