

Just Right

Zander

I can meet you wherever
We can do what you like
I could hang out forever
Oh yea you're just my type

It's not those pink bikini that you wear
It's not your sexy long blonde hair
I can meet you wherever
we can do what you like

I think you're just right
I think you're just right
Keep me up all night all night
woah oh oh

I can chill where you like to
You've got something to tell
Whatever you want to do
Oh girl you do it well

It's not those tight cutoff shorts you wear
It's not your big green eyes that stare
I can meet you wherever
we can do what you like

Every time you're near me
I get a little dizzy
You could waste all my time
And I'd be just fine
I don't care where you've been
Long as you let me in
Now that you're here with me
We can do anything
