Norton

## MAGNETS

We were down, down, down  
Iâ€™m over up  
We were down, down, down  
Iâ€™m over your sea  
We were down, down, down  
And rely  
Overcome the up scene  
I know you better than you know me somehow

You come with the bellicose sense  
Go away, drop your leaves  
Leave the magnets far behind

Running from me  
Make a way into a new shape  
Came apart and do a long last call  
Take a break and go a long way

You come with the bellicose sense  
Go away, drop your leaves  
Leave the magnets far behind

Keep moving  
Go in the headline  
Donâ€™t leave it  
Leave it like the first time  
Keep asking them again

Sometimes what you reject becomes a part of you

Come, come only  
You come with the bellicose sense  
Go away, drop your leaves  
Leave the magnets far behind
