Now That I Got You

Syleena Johnson

Come to me, baby, won't you come sit right here next to me?
And tell me how your day has been, while I rub your feet
Do you need a massage? Maybe something to eat
All day you've been on the job now you belong to me, and babyAnd now now that I got you, baby
I'm gon' give all of me 'cause you're the one for me
Now that, now that you got me, honey
You can be worry free 'cause I got that thang you needTalk to me, darling, tell how you want your bath to be
Maybe surrounded by some candlelight would be soothing
I just want you to feel like you are a king
'Cause when you do things for me I feel just like a queenAnd now now that I got you, baby
I'm gon' give all of me 'cause you're the one for me
Now that, now that you got me, honey
You can be worry free 'cause I got that thang you needAnd now that I got you I'm not ever gonna lose you
'Cause I need you, baby, and I love you, baby
And now that you got me I'm gon' make sure that you never
Have to worry, baby, 'cause I'm all the woman that you'll needAnd now now that I got you, baby
I'm gon' give all of me 'cause you're the one for me
Now that, now that you got me, honey
You can be worry free 'cause I got that thang that you needAnd now now that I got you, baby
I'm gon' give all of me 'cause you're the one for me
Now that, now that you got me, honey
You can be worry free, baby, I got that thang that you needAnd now now that I got you, baby
I'm gon' give all of me 'cause you're one for me
Now that you got me, honey
You can be worry free 'cause I got that thang you needAnd now now that I got you, baby
I got you, baby, you got me, honey
Now that you got me, honey
