

# Pay the Price

## Sick Of It All

Yeah  
When will you learn  
Face of the old mistakes  
you thought you had me,  
you thought it was something fun  
You didn't realize  
That the time would come  
For you to take responsibility for your actions  
You were the one who acted so wise  
You were the one who dared me to cross the line  
Your choice  
You pay the price  
You were the one, who acted so wise  
Now you're the one whose gonna have to pay the price  
When will you learn  
Face of the old mistakes  
you thought you had me,  
you thought it was something fun  
You didn't realize  
That the time would come  
For you to take responsibility for your actions  
You were the one who acted so wise  
Now you're the one whose gonna have to pay the fucking price
