

# Children of the Bad Revolution

## Lana Del Rey

Take me in your fast car Mercedes  
Kissing on your neck while you're driving  
Doesn't care I'm always on my Blackberry  
All the time, all the time, buying into every lie I'm a flashy little lush, but he thinks I'm really fine  
Notorious and wild, takes me where I'm gonna shine  
Where the bad boys roll hard dressing like James Dean  
And the vixen starlets feels so good to be We're children of the bad revolution  
And partying's their only solution  
In our minds, there ain't any confusion  
About who we are and what we're gonna be  
We're gonna get  
Free free free free free free free  
Get free Baby, we are chancers on the scene  
Glamour in the gutters, only so arty  
Sick graffiti artists and tabloid queen  
Mix it up, mix it up  
Every 'do you've ever seen We're acting really tough  
Like the world belongs to us  
'Cause it does, yeah, it must  
What we do creates the buzz  
Where the bad boys blow smoke  
Just like they're James Dean  
And the it girls blow kisses  
Just like Marilyn We're children of the bad revolution  
And partying's their only solution  
In our minds, there ain't any confusion  
About who we are and what we're gonna be  
We're gonna get  
Free free free free free free free  
Get free We run for our lives  
Break out of our chains  
So cutting edge  
Create our own games  
DJ's, rock stars, posers we are  
The new politicians  
Dead celebrity editions  
And it's so pornographic  
And it's tragic that the magic makes us free  
To be what we wanna be, wanna be We're children of the bad revolution

And partying's our only solution  
In our minds, there ain't any confusion  
About who we are and what we're gonna be We're children of the bad revolution  
And partying's our only solution  
In our minds, there ain't any confusion  
About who we are, what we're gonna be  
We're gonna get  
Free free free free free free free  
Get free  
We're gonna get free
