

Lifted

Suicide Silence

Inside, inside your head your wasting away
Away right in front of my eyes
Your scared, so weary and worn the fuck out
The addictions made you so sick, so sick and filthy
Poison
Your burden is life
Its made you weak and shake in the knees (2x)
Inside, inside your head your wasting away
Away right in front of my eyes
So get lifted
Dependent on this artificial feeling
Poison
Its made you weak and shake in the knees
This is not your reality (3x)
This is not you
Its made you weak and shake in the knees
This is not your reality (4x)
This is not, this is not you
This is not your reality (2x)
