

# Deja Voodoo

## Kenny Wayne Shepherd Band

From the Album:

\* Paradise in distress In broad daylight

Your clean cut town

Has turned into a hunting ground

And Mama don't need no crystal ball

To see the weight

That's coming down

25 hours a day

25 hours a day

In the heart of night

It howls for more

The beast that prowls

The killing floor

And Mama don't need to read the cards

To tell you times are gettin' hard

25 hours a day

25 hours a day

You've seen it before

It's been done to you

In another life, it spell taboo

Mama calls it

Mama calls it: D
