

Alone Tonight

Winslow

Alone Tonight
Senorita
Nice to meet ya
We show spend some time alone tonight
With your body I feel the heat
And all that I need is right in front of me
Wont be the one to bore you
But Ill be the one to show you what you never thought that youd explore
Your auras taking over me
And I dont know why
But Im willing to try and find out.
This could be just too real or too good to be true
But I cant take my eyes off of you.
Mammacita
How Id like to see you come my way
Oh the games we would play
Sugar. Darlin
Id have you hollerin my name
Would that be ok?
Maybe I should ask you.
Maybe I should try
So should I? Could I? Can I take you home tonight?
Your auras taking over me
And I dont know why
But Im willing to try and find out.
This could be just too real or too good to be true
But I cant take my eyes off of you.
