Get Up

Mayday Parade

This place is not quite what it seems
Or anything that I was told it'd be
New York, you know you make my heart skip
In my dreams I make it into VegasSeattle hits me every time
I can't get Chicago off my mind
New Jersey taught me how to let go
And I've learned that's all that I need to knowIn this moment we're connected
If we fall, we fall togetherGet up, get up, sing it like you're screaming at me
Get up, get up, I love the way you make it look so easy
East Coast, West Coast show me what you've got now
Let's go, let's goGet up, get up, make my heartbeat pickup
Get up, get up, beating to the rhythmI spill my heart from coast to coast
Fall in love with everyone I know
Sometimes it isn't where you're going
It's who you're withIn this moment we're connected
If we fall, we fall togetherGet up, get up, sing it like you're screaming at me
Get up, get up, I love the way you make it look so easy
East Coast, West Coast show me what you've got now
Let's go, let's goGet up, get up, sing it like you're screaming at me
Get up, get up, I love the way you make it look so easy
East coast, west coast, show me what you've got now
Let's go, let's goGet up, get up, make my heartbeat pickup
Get up, get up, beating to the rhythmGet up, get up, sing it like you're screaming at me
Get up, get up, I love the way you make it look so easy
East Coast, West Coast show me what you've got now
Let's go, let's goGet up, get up, sing it like you're screaming at me
Get up, get up, I love the way you make it look so easy
East Coast, West Coast show me what you've got now
Let's go, let's goGet up, get up, sing it like you're screaming at me
Get up, get up, I love the way you make it look so easy
East Coast, West Coast show me what you've got now
