# The Soul Thrower

## Misanthrope

The soul thrower
Spirit of sadness
Forever damnedDivine passage to Hell
Sacred ossuary of eternity
A morbid retirement far away from the mortals
The soul thrower
Hazy soul sailing in the immensityI found the secret gate, the nutritive-mother
The generator heart of humanityThe strange black-hole, our attraction to evil
Residence of...obscurity
Where the human souls slide
Body against body for immortalitySoul thrower to infinity
Trailing in your infernal parade
Your life-end ghostsThe soul throwerDivine passage to Hell
Sacred ossuary of eternity
A morbid retirement far away from the mortals
The soul thrower
Spirit of sadness
Forever damnedMighty bridge from Heaven to Hell
Destructive power of sterility
In a cast of flames...throw the soulsI found the secret gate, the nutritive-mother
The generator heart of humanityThe strange black-hole, our attraction to evil
Residence of...obscurity
Where the human souls slide
Body against body for immortalitySoul thrower to infinity
Trailing in your infernal parade
Your life-end ghostsTo the sagittarius sparkling
Throw those dead souls
Where reverberate the stars
From beyond to the darknessThe soul throwerMighty bridge from Heaven to Hell
Destructive power of sterility
Throw the souls
