

# Good Day Every Day

## Drivin' N' Cryin'

Me and Willie go to work  
before the sun shows cloudy skies  
wishing I could go-oh  
crawl right in to bed  
Willie says this is the day  
the Man has given to us  
to work [??] to feed us and all our children  
good day, everyday  
soon the clouds gonna free the rain  
let the secret of the sun shine  
good day, everyday  
Mother Peakcock doesn't show  
all those feathers colors glow  
sometimes credit due isn't always credit given  
lion reigns throughout the land  
king of the jungle  
returning to his den he finds the stars have fallen closely  
good day, everyday  
soon the clouds gonna free the rain  
let the secret of the sun shine  
good day, everyday  
good day, everyday  
soon the clouds gonna free the rain  
let the secret of the sun shine  
good day, everyday  
singing on the street today  
singing songs of freedom  
but people never listen and  
and the matter doesn't matter  
standing on the welfare line  
a man comes before me  
the richest man among you is the one with empty pockets  
good day, everyday  
soon the clouds gonna free the rain  
let the secret of the sun shine  
good day, everyday  
Me and Willie go to work  
before the sun shows cloudy skies  
wishing I could go-oh

crawl right in to bed  
Willie says this is the day  
the Man has given to us  
to work [??] to feed us and all our children  
good day, everyday  
soon the clouds gonna free the rain  
let the secret of the sun shine  
good day, everyday  
good day, everyday  
soon the clouds gonna free the rain  
let the secret of the sun shine  
good day, everyday  
good day, everyday  
good day, everyday
