

Stay This Way

[Kylie Minogue](#)

You take me to the top
I wonder when the drop will come
You make me feel light
I wonder when the nights will fall
You make me feel peace
I wonder when the hearse will come
You make me feel wise
I wonder when the time will callHow can it stay this way?
After the sun there's always rain
How can it stay this way?
After the sun there's always rainYou take me to the top
I wonder when the drop will come
You make me feel high
I wonder when the sky will fall
You make me feel pain
I wonder when the hearse will come
You make me feel like
I wonder when the time will callHow can it stay this way?
After the sun there's always rain
How can it stay this way?
After the sun there's always rainI hope that we can stay this way
After the sun, I don't want rain
Hmm
