Need Your Love

Kyle Kinane

I need Your love
I need Your love, I need Your love
I need Your love
I need Your love, I need Your love
I need Your love, I need Your love
I need Your love, I need Your love
I can't believe that I, I caught Your eye
When I was running away You wouldn't let me escape
I couldn't realize that my disguise
Was only hurting myself I knew I needed Your help
Then you came and You found me
Loved so hard, it made me believe
(I got lost inside the feelin' that You provide)
I know You won't ever leave me
Came too far to turn and just leave
(I'm the reason You stepped out of eternity
I need Your love
Coming over me, undeniably
(I need, I need, need, I need)
I need Your love
Take my breath away
I want You desperately
(I need, I need, need, I need)
I need Your love
Addicted and I need my fix
Can't believe I'm this
Tried You, You are the truth
Haven't been the same way since
It feels good when you believe in
Something that outlasts the trends
From here on is where I begin
But tell me where does it end and that's when
Then you came and You found me
Loved so hard, it made me believe
(I got lost inside the feelin' that You provide)
I know You won't ever leave me
Came too far to turn and just leave
(I'm the reason You stepped out of eternity
I need your love

Coming over me, undeniably
(I need, I need, need, I need)
I need your love
Take my breath away
I want You desperately
(I need, I need, need, I need)
I need Your love, love, love
(I need Your love, I need Your love)
(I need Your love)
I need Your love, love, love
(I need Your love, I need Your love)
(I need Your love)
I need Your love
I need Your love
I need Your love
Love like I need the rain on dry days
Like I need oxygen to make way
For my lungs to inhale
The air from Your atmosphere
Here and now, I'll wrap this up
And trust I'm not goin' no where
You can be my king
And I don't care who's watching me
I'm so in love with the way You believe
That I'm worth everything
That You gave to be close to me
Didn't matter what it cost
You're supposed to be
Everything that I need to live happily
Its no wonder
That You got my heart feeling free
Now take me away
Why don't You take me away
I wanna be lost in You
So just take me away
I need Your love
Coming over me, undeniably
(I need, I need, need, I need)
I need Your love
Take my breath away
I want You desperately
(I need, I need, need, I need)
I need Your love
(I need Your love, I need Your love)
(I need Your love)

I need Your love
(I need Your love, I need Your love)
(I need Your love)
I need Your love
I need Your love
I need Your love
I need Your love
