

# Heartbox

## Christophe Willem

I remember the moment you told me  
Our love was lost and ooh  
How it split me in two pieces  
Never thought you'd be so cruel  
So calm and so cool  
Stop for a second and see  
Can you see, can you see?  
Look back, baby, it's your heartbox missing a beat  
'Cause it's me that's walking  
On the sunny side of the street  
In the sunshine, in the sunshine  
Well I guess I was wrong  
When I thought I heard my heart say  
That you must be the one  
'Cause it's only a couple of weeks now  
And it's already gone  
Yes she's already gone  
And now I'm moving on and on, and on  
Look back, baby, it's your heartbox missing a beat  
'Cause it's me that's walking  
On the sunny side of the street  
Look back, baby, it's your heartbox missing a beat  
'Cause it's me that's walking  
On the sunny side of the street  
In the sunshine  
You said it was over  
Over, it's over, you said it was over  
I'm not the one looking over my shoulder  
You said it was over  
Over, it's over, you said it was over  
I'm not the one looking over my shoulder  
Looking over your shoulder  
Stop for a second and see  
Look back, baby, it's your heartbox missing a beat  
Look back, baby, it's your heartbox missing a beat  
'Cause it's me that's walking  
On the sunny side of the street  
Me that's walking, me that's walking on  
Look back, baby, it's your heartbox missing a beat  
'Cause it's me that's walking  
On the sunny side of the street  
Look back, baby, it's your heartbox missing a beat  
Oh, look back, baby, it's your heartbox missing a beat  
'Cause it's me that's walking  
On the sunny side of the street  
Is my heartbox, is my heartbox missing a beat?  
In the sunshine, in the sunshine  
Feels all right  
In the sunshine, in the sunshine  
Feels all right
