Iwapele

Navasha Daya

It's not about security. it's about your destiny. it's not about the power u seek. it's about your destiny. be good. act good. play good. gentle character. be sweet. be kind. gentle character. moving from control into acceptance. be gentle. it's not about you feeling the blues. it's about the words u choose. it's not about Good Intentions. it's about the things you mention. sometimes you have to go inside. and reflect. be still. gentle character. be sweet. moving from control into acceptance. In life you can get it, to live it and convey it to make it your way with gentle character!
