

Come

Granger Smith

My heart is beating, you could feel it, I can show you how.
There's so much tension, not to mention, girl, you're staring me down.

We don't ever have to leave this room
But if you really want to

Baby, come with me,
Close your eyes, there's no telling what we'll see.
Let the world stay in mediocrity,
Follow love, baby come.

I'll light a candle that can handle this shadowy room.
So many things I can see while I'm traveling you.
Let the passion of the night control
Just where we wanna go.

Baby, come with me,
Close your eyes, there's no telling what we'll see.
Let the world stay in mediocrity,
Follow love, baby come.

Everybody wants to get away,
Run away out of town,
That's not we worry about.
Me and you got enough to do,
Wrapped up in this blanket on the ground,
Look what we have found.

Baby, come with me,
Close your eyes, there's no telling what we'll see
Let the world stay in mediocrity,
Follow love.

Come with me,
Close your eyes, there's no telling what we'll see,
Let the world stay in mediocrity,
Follow love, baby come, baby come.
