

Gotta Boyfriend?

Frankmusik

Boyfriend
B b boyfriend
Boyfriend boyfriend
Boyfriend
So you gotta gotta boy right here
Have you got a boyfriend out there
Cos I know we could maybe, we could share
But I don't think that's very, very fair
It's so more hard when I'm not right here with you
You make me do things, I don't want to do
You call me in and I know there's so much more
Why do you pick me up to kick me to the floor
So you got a boyfriend right here
Have you got a boyfriend out there
Cos I know maybe we could maybe, we could share
But I don't think that's very, very fair
I go to clubs
You go to clubs to
But my friends tell me that I don't have a clue
So you can give me one the next time I'm out
So I got something to scream and shout like

So you got a boyfriend right here
Have you got a boyfriend out there
I know maybe we could, we could share
But I don't think that's very, very fair
So you got a boyfriend right here
Have you got a boyfriend out there
I know maybe we could, we could share
But I don't think that's very, very fair
We could share, aiiirr, aiiirr
Now I wonder, why this way
I don't know where you really strayed
and your empty touch
Fractures all of my skin
How happy I could be with the one without you in
So you got a boyfriend right here
Have you got a boyfriend out there
I know maybe we could, we could share

But I don't think that's very, very fair
Gotta boyfriend right here
Have you got a boyfriend out there
So you got a boyfriend right here
Have you got a boyfriend out there
