

# Ode To You

## Edgewater

Drenched in sweat from the touch of you  
Quivering, what to do?  
'Cause you will lead the way  
And you will make me sway into you  
'Cause I will wait for a chance with you  
To lose everything I'm used to  
And I catch myself confused  
Take a chance, what you got to lose?  
Imagining, what I could do  
'Cause you will lead the way  
And you will make me sway into you  
'Cause I will wait for a chance with you  
To lose everything I'm used to  
And I catch myself induced chasing after you  
Lay me down  
Don't let go, don't let me drown  
I want you to know  
I won't give up for anything  
Taking me to the breaking point  
And you're tired of talk and walk from me  
Take a chance and let me breathe  
And I'll find a way that you can see  
'Cause I will wait for a chance with you  
To lose everything I'm used to  
And I catch myself confused  
'Cause I will wait for a chance with you  
To lose everything I'm used to  
And I catch myself induced chasing after you
