Sismo

So long for now,
I will take what you said and did,
and fold it all around my heart
So calm for now,
But I feel unrest working in my spine
(One blow in the nape of my neck,
A hot kiss)
So long for now,
I know you must be leaving,
But I hope to see you safe again

I'll try to follow my curve,
Wherever it might lead
So long for now,
I will keep it all, and fold around my heart
So deep the earth breathes,
Through winter's cold
She must fold
Around her heart.
