

Pssst, Our Vestige Is Showing

A Voice Like Rhetoric

Pins and needles make poor blankets and sheets
One second gave enough to respire
Seven to repair and it sat
At an equilibrium for a level on a pitch
I need a reason why
Can i borrow yours tonight?
I am out like a light in Vegas
So place your bets
So place your bets wisely
I am out like a light in Vegas
So place your bets
So place your bets wisely
I never made a casting call but you're a terrific actor
And maybe someday i'll play the fool
The part i know so well
It's a lesson in nonfictional dramatics tonight
I am out like a light in Vegas
So place your bets
So place your bets wisely
I am out like a light in Vegas
So place your bets
No i conduct conversations without pronouns
And you don't bother to say
Not a single word
OH NO!
A daughters dream relentlessly occurred over and over
The night was though
(From green to red as it was said, the chorus chanted. This chance to make a stance, promises gleaming)
The night was through
