

Do You Know Me

John Mayer

It's just the strangest thing
I've seen your face somewhere
An early evening dream, a past life love affair

Do you know me at all
Do you know me at all

In all my reverie I thought I felt us there
A feather in my hat, a flower in your hair

Do you know me at all
Do you know me at all
Do you know me at all
Do you know me at all
