

# Praise Him In Advance

[Marvin Sapp](#)

I've had my share of ups and downs  
Times when there was no one around  
God came and spoke these words to me  
Praise will confuse the enemy  
I've had my share of ups and downs  
Times when there was no one around  
God came and spoke these words to me  
Praise will confuse the enemy  
I started singing, I started clapping  
I started dancing, people were laughing  
They knew my problems, they knew my pain  
But I knew God would take them away  
I've had my share of ups and downs  
Times when there was no one around  
God came and spoke these words to me  
Praise will confuse the enemy  
I've had my share of ups and downs  
Times when there was no one around  
God came and spoke these words to me  
Praise will confuse the enemy  
I started singing, I started clapping  
I started dancing, people were laughing  
They knew my problems, they knew my pain  
But I knew God would take them away  
That's why I praise him with my hands  
That's why I praise him with a dance  
He's given me a second chance  
Come on let's praise him in advance  
That's why I praise him with a song  
When things are right and when they're wrong  
He's given me a second chance  
Come on let's praise Him in advance  
Praise Him, Praise Him  
Praise Him, Praise Him  
Praise Him, Praise Him  
Praise Him in advance
