I'll Never Leave You

Jimmy Wayne

Just because two people are reliant, doesn't mean they won't disagree
Baby, there's one thing you can be sure right, when it comes to you and me[Chorus]
Is that I might stomp the floor or I might slam a door
I might say some words I don't mean, but I can promise you there is one thing
That I will never do or where I will never leave youI can't say I haven't thought a-bout it, no, that would be a lie
Baby, there ain't no doubt a-bout it, oh no, I'll be right here 'til the day I die[Chorus]
'Cause I might stomp the floor or I might slam a door
I might say some words I don't mean, but I can promise you there is one thing
That I will never do or where I will never leave youNo, it's just the matter of whatever we go through
No, no, no, no, I'll never leave you[Chorus]
No, I might stomp the floor or I might slam a door
I might say some words I don't mean, but baby, I can promise there is one thing
That I will never do or where I will never leave you[Tag]
No, I'll never leave you, baby
Oh no, no, I will never leave you, baby oh
