

# American Pie

## Alien Ant Farm

Your 17 hundred 76 miles away from all of this back home, back home

You show me 50 stars I'll give you 50 kisses from my soul, my soul

Oh, and every day I pledge alligence to my girl

Cause you're the reason

My sun rises in the west

I know its strange but thats where you are

Yeah, right in my heartRed hair, white skin, blue eyed girl

Wait for us while we change the world

My tired bones still fight for her

My red hair, white skin, blue eyed girlOh yeah the bombs are falling

Lighting up my sky like the 4th of July

You're the apple of my eye

My sweet American pie

I'm less than 30 days away from seeing your pretty angel face once more, once more

If all is fair in love and war you'll find my purple heart at your front doorRed hair, white skin, blue eyed girl

Wait for us while we change the world

My tired bones still fight for her

My red hair, white skin, blue eyed girlOh yeah the bombs are falling

Lighting up my sky like the 4th of July

You're the apple of my eye

My sweet American pieOh I can feel you coming

If it takes some time baby I wont lie

Wait again I'll be by your side

My sweet American pieBe my guiding light, you're keeping me alive tonight (shine bright)

Babe I got a light, you're keeping me alive tonight (shine bright)

Be my guiding light, shine bright

Oh yeah the bombs are falling

Lighting up my sky like the 4th of July

You're the apple of my eye

My sweet American pie

Oh I can feel you coming

If it takes some time, baby I won't lie

Wait again I'll be by your side

My sweet American Pie
