

Centerfold

Shwayze

I'm on the rebound, I get it where I want to
I'm on the way down, I'm getting fixed without you
You gave me a band-aid, I put it on my heartbreak
And all you got is pictures in your hand Don't you wish you could hold
The angel in the centerfold?
The fantasy you couldn't control
Who walked away from you Don't you wish that you could hold
The pretty little paper doll?
The one you couldn't quite control
Who walked away from you Flip to me, I'm the centerfold
I'm gonna charm you all night
Stick to me, I'm the centerfold
We're gonna go, oh, hold tight I'm gonna hate you, 'til I forget you
So here's a keepsake, I left it in the bathroom
Just a little something, something to remind you
The joy you'll never get this close again Don't you wish you could hold
The angel in the centerfold?
The fantasy you couldn't control
Who walked away from you Don't you wish that you could hold
The pretty little paper doll?
The one you couldn't quite control
Who walked away from you Flip to me, I'm the centerfold
I'm gonna charm you all night
Stick to me, I'm the centerfold
We're gonna go, oh, hold tight Flip to me, I'm the centerfold
I'm gonna charm you all night
Stick to me, I'm the centerfold
We're gonna go, oh, hold tight Now, it's him but it could've been you
Tell me why it's him, when it should've been you?
It's crazy how this makes you wanna change Here's an image you won't forget
All your life I'll tease, I'll torment
I'll be gone as soon as you turn the page Don't you wish you could hold
The angel in the centerfold?
The fantasy you couldn't control
Who walked away from you Don't you wish that you could hold
The pretty little paper doll?
The one you couldn't quite control
Who walked away from you Flip to me, I'm the centerfold
I'm gonna charm you all night

Stick to me, I'm the centerfold
We're gonna go, oh, hold tight
