

# Milkman

## Barry Greenfield

Dont dare might have some nerve  
My time is blazing . I am disparate  
    I am disparate  
    I am disparate  
    With your eyes  
    He is my milkman  
    He is . got a symptom  
        I am disparate  
        I am disparate  
        I am disparate  
        I am disparate  
    I am disparateI am disparate  
        I am disparate  
        I am disparate  
        . morning he comes  
        Eyes can see through  
            There is hole  
            . gives it to you  
            I can see it .
