

# Burn

## Iggy & The Stooges

Burn, burn, am I concerned?  
Should I be so?  
Well I don't know.  
The goddess of beauty, is backing into me  
I got a lesson to learn  
And there's insights in the fire lights  
The feelings of youth die looking for truth,  
And the truth's gonna make them squirm  
'Cause the man of the future's a bully and bruiser  
And his looking for a new one.  
As the wind blows, through your window  
Now you're on trial, Berlin style[Chorus]  
Inspector of duty is always to me  
Guess I got a lesson to learn  
Burn, burn,  
They're taking over as the world turns  
I'm on fire, with a reptile  
Burn, burn,  
They're taking over baby  
Burn, burn  
They're taking overThe goddess of beauty, is backing into me  
I got a lesson to learn  
Because there's no God in this crowdBaby burn, burn,  
They're taking over the burn, burn  
They're taking over baby burn, burn  
They're taking over the burn, burn  
They're taking overBurn, burn,  
They're taking over  
Burn, burn,  
They're taking overBurn, burn
