

# Always, Wu

# Volbeat

Sickness hide inside  
Eating flesh by time  
The saddest news I have in mind  
But I know you man  
A heart like no one else  
Keeps the fire glow friend[Chorus:]  
If I loose you, with the smile you do  
If I loose you, in the morning  
In the final sleep  
If I lose youOnly one to know  
And I promise you  
Nothing change unless you say  
But I know you man  
A heart like no one else  
Keeps the fire glow my friend[Chorus]Carry on cause there's no place to hide  
Find the oath and feel  
Our love for you is for all endless time  
Alone you never be  
[Chorus]
