

# The Others

## MIYAVI

Boy, keep on diggin  
Deep in the dirt  
Don't let no love in  
Too afraid to hurt  
Fragmented memories  
The dice is cast  
After the frenzy  
Time to face the past  
In the air I'm free  
That's where I'm born to be  
We are the others  
The dreamers and the lovers  
We are every color  
We are the others  
Who named the countries  
Who built the walls  
We fight for money  
While they print it all  
Instead of rifles  
We play guitars  
Sing for survival  
That's just who we are  
Take off your disguise  
You can spread your wings and fly  
We are the others  
The dreamers and the lovers  
We are every color  
We are the others
